DEEP MANUAL LYMPHATIC DRAINAGE – REBALANCE 4 METHOD

Rebalance4 is an innovative manual technique used for lymphatic drainage and tissue reshaping. It provides a personalised assessment of skin tissue type, concerns, and the client's social and environmental context.

With this technique, we treat the four skin tissues involved in fluid retention: connective, muscular, adipose, and an innovative concept of finger pressure to unblock the lymphatic system.

It is a complete, deep, and highly effective massage that delivers an immediate feeling of well-being and lightness.

FOOT REFLEXOLOGY THERAPY

Ancient technique that has evolved over time into different styles. We offer a treatment that is effective yet gentle and soothing, bringing deep relaxation.

DEEP TISSUE

Deep muscle massage that improves tissue health by speeding up the release of tension and blockages in the deeper layers.

ORIGINAL SHIATSU

All our practitioners are trained in international traditional Chinese medicine academies. Shiatsu, an ancient technique, can help with many issues by restoring the body's overall energy flow along its meridians. It is a technique to discover and love, leaving you deeply calm, balanced, and light.

ORIGINAL CHINESE CUPPING

An ancient technique that uses glass cups to create a suction effect on the skin, helping release connective tissue with strength and achieve impressive relaxing results.

EXCLUSIVE MESSAGES CAVALLO ISLAND

ISLAND HOT STONE MASSAGE
